## PRODUCTS

# 2 species and 9 tastes: you choose.

The two types of anchovies belong to the same species of fish, *Engraulis encrasicolus*. The sardine belongs to another species (*Pilchardus*).

The artisanal and manual treatment of sardines and anchovies guarantees high quality pieces, smooth and with a powerful flavor in which the flavors of the ingredients are perfectly intermingled, thus achieving an exceptional product, with a high level of contributions of Omega 3 naturally.

Our products also meet the criteria and requirements of Sustainability, specifically those of "Sustainable Fishing". Sustainable Fishing is the group of practices aimed at maintaining the population of marine species at optimal levels to ensure survival, respecting the environment natural.
