**PERFECTING THE IDEAL**

# THE PERFECT BEER

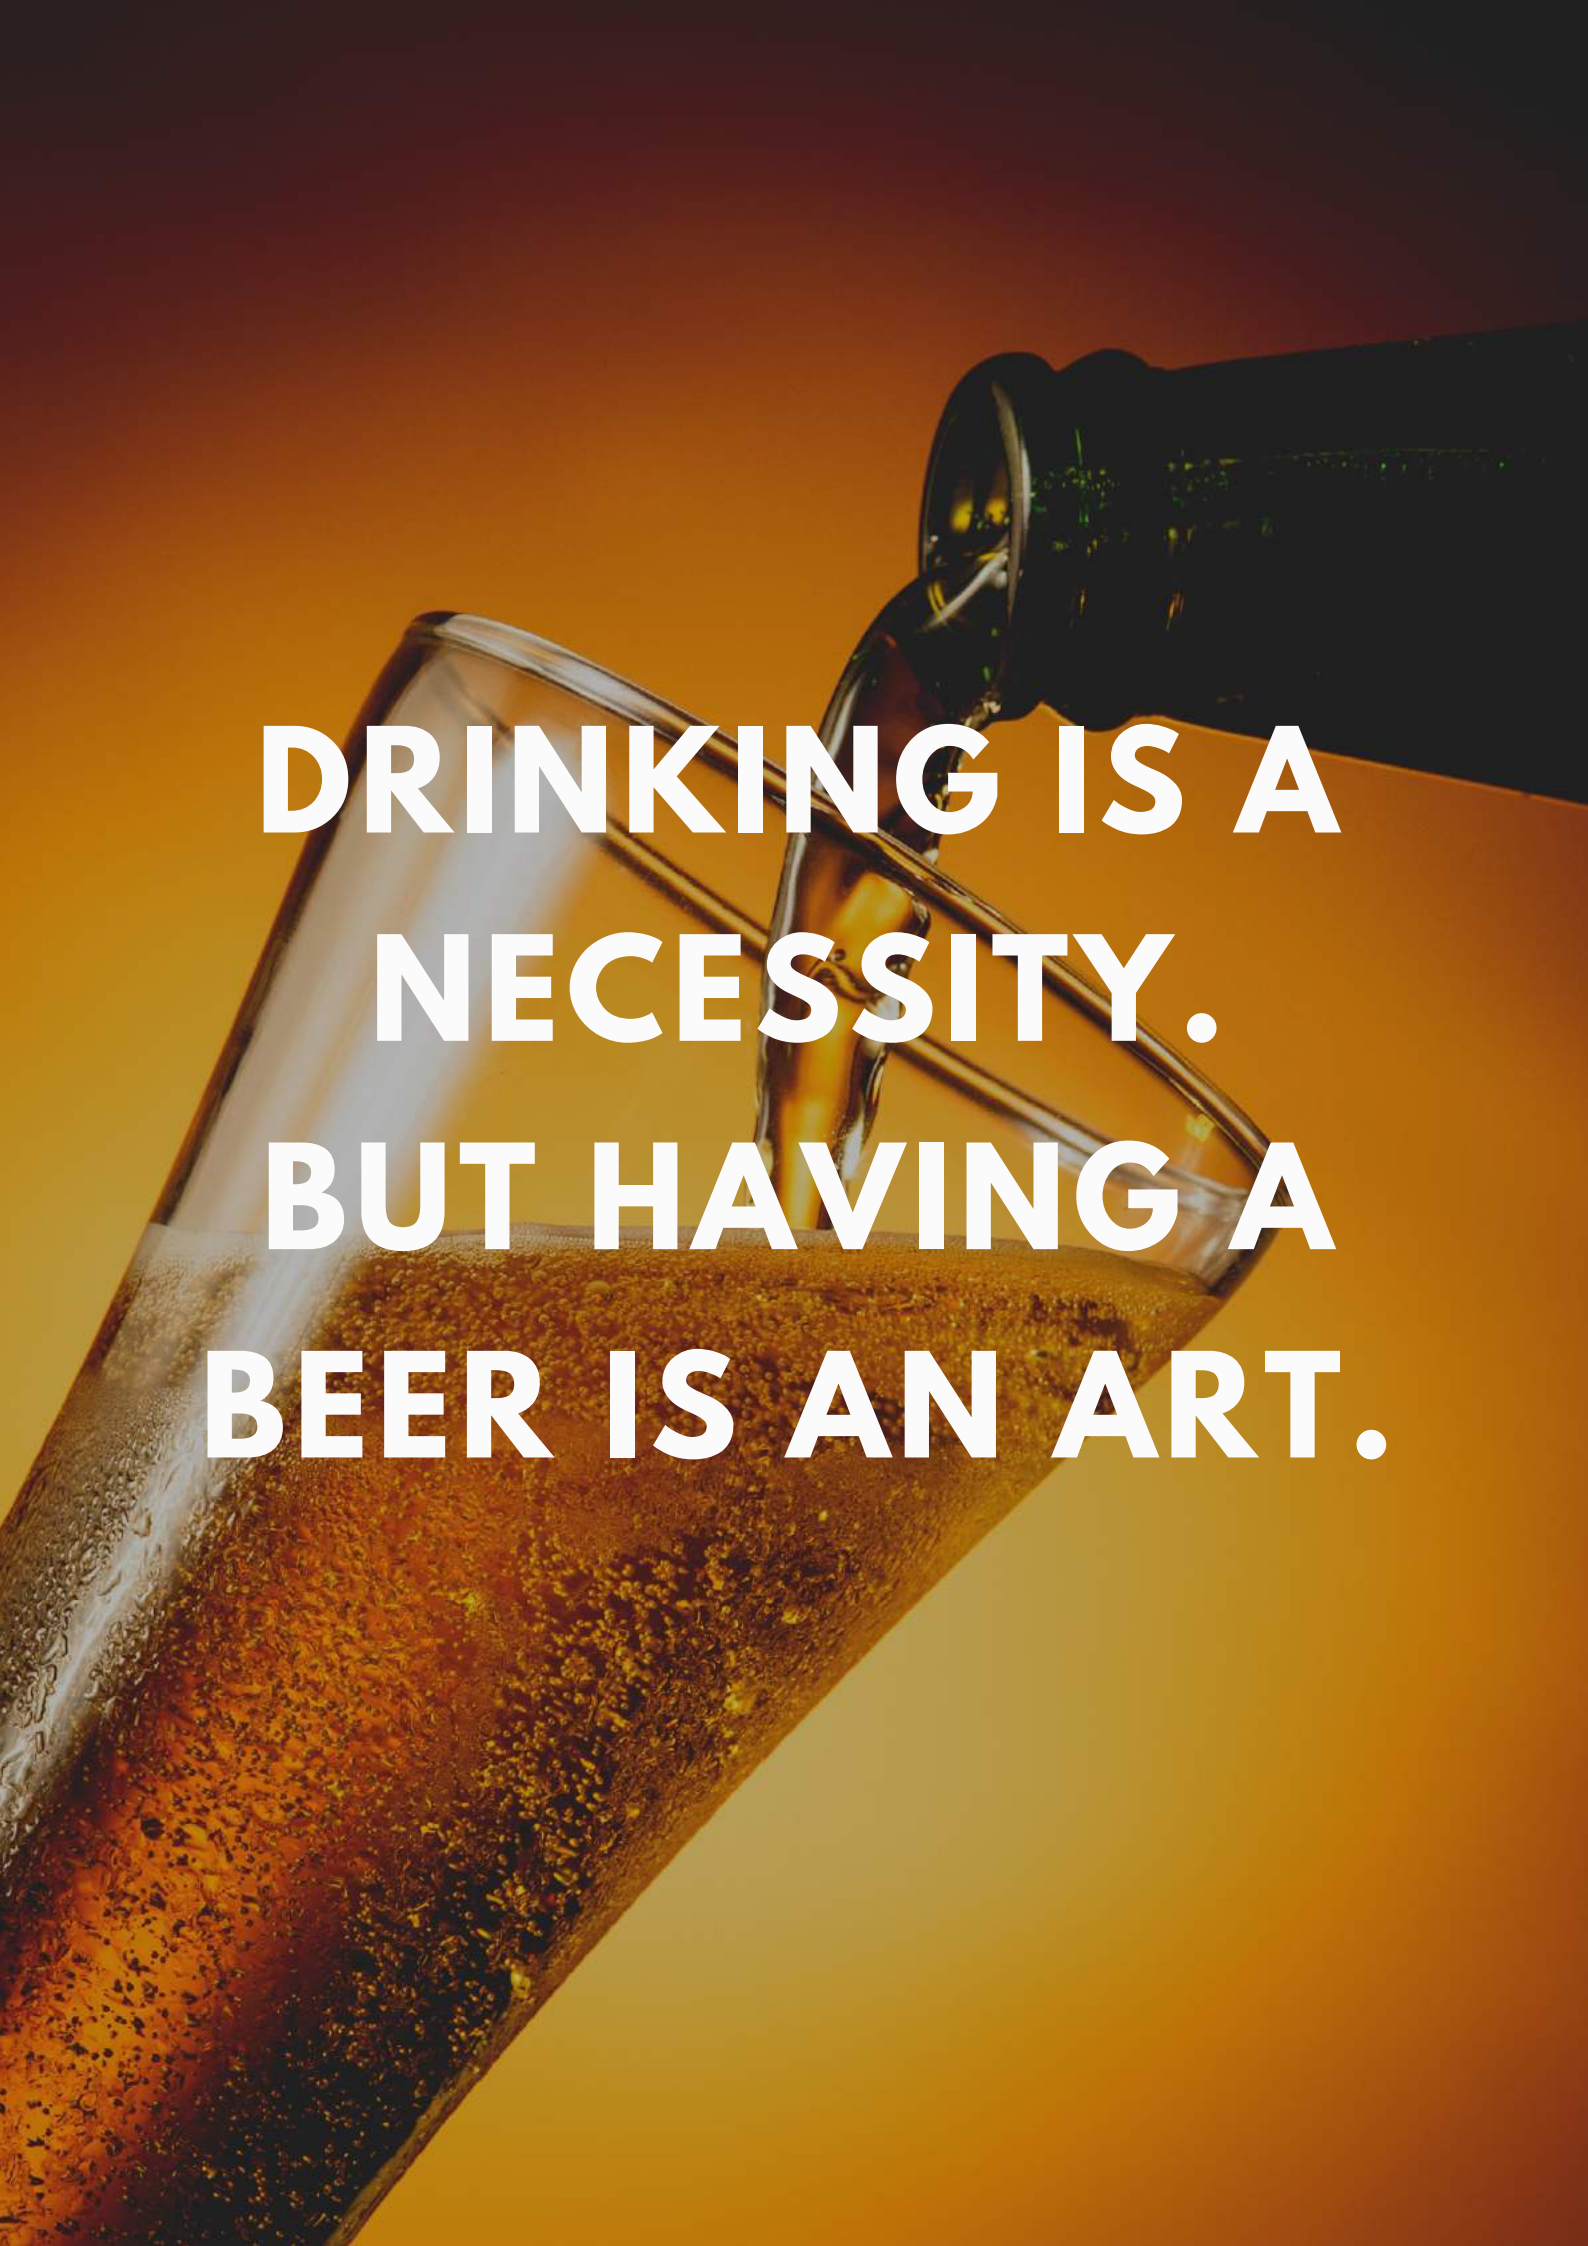

**By Fernando Nevado**

**Managing Director of JAIA TRADE COMPANY**

The origin of its ingredients, the care of the elaboration processes, the people who participate in its commercialization ... all this makes our beers a very "Special" product.

Step by step, from the grinding of the malt to the fermentation of the must, we look for a beer that conserves all the nutritional properties of its cereal whilst savoring the distinctive hop bitterness, with a citrusy aroma and full on freshness.

Contact us, we are importers / Exporters and Distributors hub for high Distribution. We will send you an important list of beers so you can encourage them to market them.

**DRINKING IS A  
NECESSITY.  
BUT HAVING A  
BEER IS AN ART.**

# BEERS AND MALTES

## DISCOVER THE DIFFERENT TYPES

Here are the types of beer according to the level of fermentation of the yeast:

### Fermentation Beers High:

**# 1 Beer Type Ale:** Body and Strong Taste. There are 3 types: British, German and Belgian.

**# 2 Type of Abbey Beer:** The aromas of the Abbey type beer are caramelized and its fruity flavor, with a dry final taste.

**# 3 Type of Black Beer / Stout:** The black color is due to the intense malting of the beer, of powerful flavor. There are of the types: Porter style and stout.

**# 4 Type of Wheat Beer (weissbier):** Acid flavor, but at the same time refreshing and sparkling.

**Low Fermentation Beer:** The most common:

**# 0 Type of Beer Lager.** There are of the following types: Pilsen (Of blond color with a slight smell of hops), Special (Of blond golden color, amber and aroma marked to malt and Extra (Of coppery old gold color and aroma to licorice and hops).

**Spontaneous Fermentation Beer:** Belgian specialty, the hopped must is exposed to fresh air from the outside. There are 3 styles: **Gueuze, Faro and Kriek.**

**Maltas without Alcohol:** In its versions of less than 1° or 0, 0°, each day has more followers given its characteristic aromas and flavors.
